

GENETIC TESTING

GENETICS AND PREIMPLANTATION GENETIC TESTING		€
PGT-A Preimplantation genetic screening for aneuploidy - each examined embryo		350,00 €
PGT-SR Preimplantation genetic screening for translocations- each examined embryo		350,00 €
PGT-M Examination of reference samples and preparation for the examination of monogenic diseases in embryos by karyomapping method		1 600,00 €
PGT-M Preimplantation genetic screening of monogenic diseases in embryos by karyomapping method - each examined embryo		450,00 €
Direct mutation detection in embryos		600,00 €
Biopsy (sampling for PGT) 1-5 embryos		400,00 €
Biopsy - each additional embryo		50,00 €
Thawing of embryos prior to biopsy for genetic testing of embryos		250,00 €
PANDA Infertility including consultation of the results with a medical geneticist		330,00 €
PANDA Carrier including consultation of the results with a medical geneticist		630,00 €
ERA test		800,00 €
EndomeTRIO - ERA+EMMA+ALICE-Tests		1 360,00 €
KIR immunogenetic testing (female genotyping), one blood sample		130,00 €
HLA-C immunogenetic testing (partner genotyping), one blood sample		280,00 €
Couple KIR and HLA-C immunogenetic testing package, one blood sample from each partner		310,00 €
Managment for PGT procedure for foreign patient		200,00 €

Patients agree to pay for laboratory procedures that are not part of the package price for infertility treatment and are necessary for genetic testing to be performed.

Payment for the procedures must be paid before the biopsy samples are taken, at the clinic reception or via bank transfer.
