

SOCIAL FREEZING FINANCING

At GYN-FIV, we understand that egg freezing can be financially demanding. That's why we've created a payment plan option to make it easier for women to make decisions about their reproductive future without worrying about financial burden.

FIRST PAYMENT The first installment is paid after the consultation with the doctor, where the treatment plan is agreed upon. First payment of 600€ needs **to be paid before the egg retrieval procedure.** **600€**

INSTALLMENTS THE SECOND HALF OF THE PAYMENT IS DIVIDED INTO **4 MONTHLY INSTALLMENTS** PAID AFTER THE EGG RETREIVAL PROCEDURE. 4 installments sum = **645 €**

1st month - 150€
2nd month - 150€
3rd month - 150€
4th month - 195€

} **645€**

EGG FREEZIGN & STORAGE The cost for egg freezing and storage for one year is **370€** €370. This amount needs to be paid in the month when the retrieval and freezing were performed.

REFERRAL PROGRAM FOR PATIENTS

Let's talk about EGG FREEZING and EGG DONOR PROGRAM. If you reffer your friend, who then decides to undergo egg freezing or donates eggs, you will receive a **bonus of 100€.**

It is our priority to communicate these important topics, and we want to thank you for helping us with that. Let's spread awareness together.
